SHO

BERTHOUD
BUSINESSES
THIS HOLIDAY SEASON

Saturday November 30 is Small Business Saturday. This unofficial holiday encourages shoppers to visit the brick and mortar stores in town to find holiday gifts for friends and loved ones.

This year, Berthoud Mainstreet is working with local downtown businesses to support Small Business Saturday.

Shopping small doesn't just help local businesses, it also helps our Town by keeping sales taxes local and supporting local jobs.

Every dollar you spend at a local business returns three times more money to the local economy than one spent at a chain.

Local businesses generate more tax revenue per sales dollar, giving the Town more resources to put towards schools, infrastructure, parks and recreation and all the great things that make Berthoud an amazing place to live.

Local shops and retailers often employ people who live in the area. This translates to more jobs for your friends, family and neighbors.

EMERALD ASH BORER FOUND NEAR BERTHOUD

Early in October, emerald ash borer (EAB) was detected in a tree less than three miles outside of Berthoud. This case was the first found in Larimer County, and the third confirmation in Colorado outside the federal quarantine in less than two months.

With this pest located so close to Town, the immediate response should be prevention. For years the Town has been working to actively combat the spread of EAB in our Town with a cost share program on right-of-way trees. The EAB Cost Share Program will continue to be offered in 2020 and is intended to assist Berthoud property owners in managing ash (Fraxinus spp.) trees located in street rights-of-way (tree lawns). The Forestry Department will assist property owners by contributing up to 50% of treatment cost (but not to exceed $200/tree) for a total of two (2) trees, however, homeowners will have the option to have additional right-of-way trees treated at their own expense. Applications will be advertised in early spring.

Here are some tips residents can take to prevent the spread of EAB in their ash trees:

- Determine now if you have any ash trees on your property.
- If you have an ash tree, start planning pesticide treatment to combat EAB or remove your tree if it is older.
- Recognize signs of EAB infestation including thinning leaves in the upper canopy, D-shaped holes on the bark and vertical bark splitting with winding S-shaped tunnels underneath.
- Help prevent further spread of EAB; don’t transport ash or any hardwood firewood, or any other untreated ash wood products to other locations.
- If you notice any suspect trees, report them by calling the Colorado Department of Agriculture at 1-888-248-5535 or filling out their EAB Report Form online.

Learn more tips about combating EAB and identifying the signs of this pest online at: www.berthoud.org/EAB

ROBERTS PARK PIER PROJECT

Construction is underway on Roberts Park Pier. The pier on the west shoreline has undergone a major renovation, increasing the size and making the pier ADA compliant, allowing all visitors to have a better fishing experience. Those who visit the park will be able to enjoy the updated pier in early November!

FOG (FATS, OILS AND GREASE) ISN’T FRIENDLY TO YOUR PIPES

While it may seem innocent to dump some extra bacon grease down the drain, this action can have some serious consequences. Disposing of fats, oils and grease (FOG) down the drain can cause blockages in your pipes that could eventually lead to backups into your home or the home of your neighbors. For this reason, remember to always dispose of FOG in your trashcan, not down the drain. Learn more at www.berthoud.org/FOG

DOG PARK CONSTRUCTION UNDERWAY!

Work is underway on Berthoud’s new dog park located on 10th Street South of Welch Ave. Construction kicked off last month, and we hope to open this space to the public in early December.

The dog park will give be an off-leash area in Town for dog owners to enjoy play time with their furry friends. The one-acre space will be divided into two areas: one for small dogs and one for bigger canines. Fencing, doggie bags, trash cans, benches, water and other amenities will be provided in this space to ensure that everyone can enjoy this new community asset.
