General Comments Received
Outdoor paths at Waggener Park; no ball fields, no lights, no competition games
Please build the rec center in phases over time for affordability
I can't provide reasonable feedback without approximate cost information
Too much \$\$ for indoor aquatics; outdoor aquatics is OK
Trails, jogging path
Rec center at Richardson
Connecting trails and outdoor facilities are most important and less costly than a rec center right now
No lighted parking; Star gazing, doggie park, picnic area, bike paths
No amphitheater
No rec center at Waggener Park; Rec center at Richardson Park
Rec center at Richardson - beautiful location
No rec center campus or community center at Waggener. Better for Berthoud to put rec center campus and ball fields at Richardson.
I currently travel with other moms + kids 25-40 minutes to parks. We would LOVE to stay in town with modern parks + water features
Have these displays and information at all Berthoud schools' Back to School Nights
Parents + kids at Back to School Nights to see this information

Dotocracy - Quick Summary

Highest Priority Spaces

The Spaces with the Highest Priority included the Outdoor Leisure Pool, Aerobics / Dance room and Indoor Walking Jogging Track

A few people also included the Gymnasium, Community room and Weights room as also having the highest priority.

Most Voted Spaces

The Aerobics / Dance, Rock Climbing Wall and Weights / Cardio Room received the most number of votes. Also it was interesting that Climbing wall did not receive a single 1st place votes

The 2nd group of top vote getters included, The outdoor Leisure Pool, Gymnasium / Mac Gym, Indoor Jogging Track, Specialty Entertainment and Childwatch.

Least Voted Spaces

The spaces that received the least amount of votes were the community spaces including Arts & Crafts rooms, Community Rooms, Classroom Spaces & juice bar.

Other Comments

Some of the general comments included a push to have the Rec. Center at Richardson Park, an emphasis of making Waggner a Passive park, with little development, lights and parking and the concern for making decisions without cost information.
